Assistant Commissioner for Patents
Washington, D. C. 20231

Dear Sir:

Here are copies of references that may be relevant to the examination of this application. These references are listed on attached Form PTO-1449.

Other commonly owned patents and patent applications naming the same four inventors with another include: US Patent Nos. 5,747,103, 5,912,759, and 5,903,023; and Application Nos. 09/139,495, 09/340,235, and 09/360,670. These other applications disclose Electrochemical Mechanisms for Clearing Thin Film. Much of the enclosed art was accumulated in the course of preparing and prosecuting these applications.

The Examiner's attention is also directed to the Background portion of the application for a discussion of the state of the art in which the invention was made.

For any questions on this art or the application, the Examiner is invited to call applicants' representative at the number listed below.

Respectfully submitted,

Thomas B. Ryan
